## ACNE

#### - NICE Acne GL including a great infographic summarizing treatment options <https://www.bmj.com/content/374/bmj.n1800>

Layton et al. 2021 recently commented on the guideline: “This guideline emphasizes the importance of assessing and supporting mental health issues resulting from acne, and provides a clear and practical update on management. Its adoption will support improved management in primary care. Novel areas for secondary care include the potential use of physical modalities and the management of acne scarring. Areas requiring further research have been identified to optimize care for people with acne.” page 3, Layton AM, McDonald BS, Mohd Mustapa MF, Levell NJ. National Institute for Health and Care Excellence (NICE) acne guideline: what's the latest for dermatologists? Br J Dermatol. 2021 Nov 28. doi: 10.1111/bjd.20888. Epub ahead of print. PMID: 34841525.

#### - The Personalised Acne Care Pathway - longitudinal management <https://www.sciencedirect.com/science/article/pii/S2666328721000754>

Tan et al. 2021 included in their pathway points for discussion with the patient that are useful to guide clinical decision making.

## **BULLOUS DISEASES**

### **- EU mucous membrane pemphigoid Part I + II**

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC8457055/> +  
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC8518905/>

## **GENETIC DISEASES**

### **- Guideline Basal cell naevus syndrome (Gorlin-Goltz syndrome)**

<https://onlinelibrary.wiley.com/doi/epdf/10.1111/bjd.20700>

A very useful multidisciplinary guideline for the management of this multifaceted disease, specific responses to relevant questions such as: "Should radiological examination be avoided as a diagnostic tool?" and a useful checklist for all relevant measures.
