

### NEW! EuroGuiDerm Guideline for the treatment of Psoriasis vulgaris

What's in it:

- Overview of clinical management for 14 drugs
- Guidance on how to manage 15 specific clinical situations
- DECISION GRID for quick reference
- IFPA patient guide

...and it will continuously be updated !

The general recommendations developed in this guideline are based on the [Psoriasis Living Cochrane review](#) published in January 2020. With new evidence and new results becoming available, the guideline development group will consider these and decide if and when an update is necessary. Those and the recommendations for specific clinical and comorbid situations will also be continuously evaluated. **Updates can be found on the new website: “Living EuroGuiDerm Guideline for the systemic treatment of psoriasis vulgaris”:**

### CALL for experts: IUSTI guideline

We are pleased to inform you that IUSTI - Europe is launching the guideline update “European guidelines for the management of partners of persons with sexually transmitted infections”. The guideline panel is looking for EDF experts interested in participating in the update following the IUSTI Europe methods & processes.

Email [pnguideline@gmail.com](mailto:pnguideline@gmail.com).

EuroGuiDerm is 2.5 years old!

We have been busy piloting the Methods Manual and updating three big guidelines: Psoriasis, Atopic Dermatitis, and collaborating on the Urticaria World Guideline.

### NEW GUIDELINES

- Updated Guidelines on the **Use of Extracorporeal Photopheresis 2020** by Robert Knobler et al. <https://onlinelibrary.wiley.com/doi/full/10.1111/jdv.16890>

All guidelines can be found on the EDF website: <https://www.edf.one/home/Guidelines/EDF-EuroGuiDerm.html>
